1 AI Readiness Audit

Assess your organisation's readiness to adopt AI across 7 pillars

- ☐ We want to know where we stand before investing in AI
- ☐ We need a structured assessment of data, infra, talent & governance
- ☐ We want a prioritised AI use case roadmap
- ☐ We need to prepare for ISO 42001 or IMDA compliance

2 Personal AI Agents

AI assistants for executives and staff — email, scheduling, research, comms

- ☐ Our executives spend too much time on repetitive admin tasks
- ☐ We want AI assistants that work across email, calendar & messaging
- ☐ We need personalised AI that knows our business context
- ☐ We want to boost individual productivity by 3-5x

3 Local LLM + AI Agents

On-premise AI deployment — data stays in-house, full control

- ☐ Our data is sensitive / classified and cannot leave our premises
- ☐ We need AI but have strict data sovereignty or compliance requirements
- ☐ We want to reduce ongoing cloud AI subscription costs
- ☐ We need GPU infrastructure (NVIDIA DGX / HGX) with AI agents on top

4 Teams of AI Agents

Multi-agent systems — autonomous teams handling complex workflows

- ☐ We have complex workflows that require multiple steps / handoffs
- ☐ We want AI agents that collaborate (research, analysis, execution)
- ☐ We need 24/7 autonomous operations (monitoring, reporting, response)
- ☐ We want to scale operations without scaling headcount

5 Pain Point Solutions

Custom AI solutions for specific operational bottlenecks

- ☐ We have a specific business problem we think AI can solve
- ☐ We need document processing / extraction at scale
- ☐ We want customer service automation (chatbots, voice, ticket routing)
- ☐ We need predictive analytics or forecasting for our domain

6 AI Training Programmes

Upskill your teams — from AI literacy to hands-on agent building

- ☐ Our staff lack AI literacy and need foundational training
- ☐ We want hands-on workshops on prompt engineering & AI tools
- ☐ We need to train internal auditors for AI governance (AAIA prep)
- ☐ We want leadership AI strategy workshops for C-suite / board

7 Urgent: AI Agents & Automation

Fast-track deployments — quick wins and immediate ROI

- ☐ We have an URGENT automation need (< 4 weeks to deploy)
- ☐ We need to automate a manual process that's costing us now
- ☐ We want a quick-win AI pilot to demonstrate value to leadership
- ☐ We have budget approved and need to move immediately
